About the conference

Leadership diversity is critical and organizations must mirror a marketplace where women are the majority of new business owners and increasingly the decision-makers in established businesses.

The AICPA® and the AICPA Women's Initiatives Executive Committee (WIEC) developed this highly informative and interactive conference in collaboration with CPA Canada.

Our audience consists of women who are financial professionals and accountants from all business sectors who want to advance their leadership skills. Male colleagues interested in learning more about gender diversity and supporting the success of women also attend this powerful event.

Here's your chance to highlight your company as a thought leader, increase brand awareness and align your company with the mission of this conference... to come together as a profession to elevate, support and uplift women!
